Rhododendrons

*Buy them small &
and watch them grow*

*These evergreens
add lasting beauty and
value to your home*

RHODODENDRON 5 DE LUXE Collection No.

4 SELECT HYBRID SEEDLINGS,
8-12 in. Mixed, very brilliant colors.

4 for \$2.45

Hybrid Rhododendrons are easily the finest of the broad-leaved evergreens, ideal for all landscape and garden purposes.

We pay delivery cost on this unit anywhere on the Pacific Coast.

RHODODENDRON 4 DE LUXE Collection No.

1 ROSEUM ELEGANS, 8-12 in. Rose pink, beautiful foliage.

1 PINK PEARL, 8-12 in. Light flesh pink, amazing flower.

2 CATAWBIENSE, 8-12 in. Pink to purple.

2 PEARL OF KENMORE, 8-12 in. Clear pink, fine foliage.

2 HYBRID SEEDLINGS, 8-12 in. Mixed colors, bushy plants.

2 PONTICUM, 8-12 in. Lilac, specie of Europe.

10 for \$6.95

We pay delivery cost on this unit anywhere on the Pacific Coast.

RHODODENDRON 8 DE LUXE Collection No.

1 DR. DRESSELHUES, 15-18 in. Dark red.

1 CATAWBIENSE ALBUM, 15-18 in. Pure white; vigorous grower.

1 MRS. C. S. SARGENT, 12-15 in. Rosy red.

1 ROSEUM ELEGANS, 15-18 in. Rose pink.

2 SELECT HYBRID SEEDLINGS, 15-18 in. Brilliant colors.

6 for \$13.95

Balled, burlapped and crated. F. O. B. Nursery.

RHODODENDRONS, with their bold of handsome flowers — among the out-of-doors in the temperate parts of described them.

RHODODENDRON 9 DE LUXE Collection No.

1 CARACTACUS, 6-12 in. Red, good foliage, symmetrical growth.

1 CATAWBIENSE ALBUM, 6-12 in. Pure white, vigorous growth.

1 CERISE RED, 6-12 in. Beautiful foliage.

1 PARSON'S GLORIOSUM, 6-12 in. Blush.

2 SELECTED HYBRIDS, 8-12 in. Mixed, very brilliant colors.

6 for \$7.50

We pay delivery cost on this unit anywhere on the Pacific Coast.

RHODODENDRON 2 DE LUXE Collection No.

1 MADAME MASSON, 12-18 in. White with yellow center, early bloomer.

1 PINK PEARL, 12-15 in. Light flesh pink, amazing flower.

1 PRESIDENT LINCOLN, 15-18 in. Lilac pink with brown eye.

1 AMPHION, 15-18 in. Pink with white eye, one of the best.

4 for \$10.50

Balled, burlapped and crated. F. O. B. Nursery.

RHODODENDRON 6 DE LUXE Collection No.

1 CATAWBIENSE, 8-12 in. Pink to purple, very hardy.

1 PEARL OF KENMORE, 6-12 in. Clear pink, fine foliage.

2 PONTICUM, 8-12 in. Lilac, specie of Europe.

4 for \$1.75

We pay delivery cost on this unit anywhere on the Pacific Coast.

SANFORD PRINTING COMPANY

FAIRFAX, - CALIFORNIA

TO CORRESPONDENTS

I take pleasure in presenting herewith my twenty-fourth annual catalogue and price list.

It has been my endeavor to list, as much as possible, only the very best and most satisfactory of both Fruit and Ornamental Trees and Plants. Whatever I am not able to grow on my own grounds, I procure from the most reliable Nurseries. My Nursery is located between Fifth Avenue and Center Street, one block north and two blocks west from the Telephone Building, corner Fourth and H Streets, San Rafael.

I do not give lengthy descriptions of plants, as it is far more satisfactory to see the plants actually growing in the nursery. I have specimen plants of a number of varieties of trees and shrubs; therefore invite my customers and friends to visit the nursery whenever convenient.

Business hours from 8 a. m. to 5 p. m., except Sundays.

I warrant all trees and plants to be healthy, and true to label, but having no control over them after delivery, I do not GUARANTEE them to live and thrive, nor will I replace them, except any tree or plant should prove untrue to name; but in no case will I be liable for any sum greater than the original purchase price.

My customers are requested to notify me immediately of any error that may have occurred in filling their order, so that the same may be rectified, as I desire to give satisfaction to all who favor me with their order.

All orders delivered free in San Rafael and surrounding towns; a small charge for packing, to cover cost of material, will be made for all orders shipped by express or freight. All articles are at the risk of the purchaser, after being shipped.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference. All bills payable first of the month.

NOMENCLATURE

All plant names, both botanical and common, have been revised to conform with 1928 edition of "Standardized Plant Names" if listed in that book. The only exceptions are a few uncommon items and novelties which that work does not include. This standardized nomenclature should unquestionably be followed by everyone from now on.

RICHARD LOHRMANN

The West End Nursery

Between Fifth Avenue and Center Street.

San Rafael, California.

Phone: S. R. 934.

FRUIT TREES

The varieties listed are the best and most satisfactory for this locality. Prices for new varieties, and larger quantities on application. The trees are 1 and 2 years old, average 4 to 6 feet in height. Trees of bearing age, 3 to 4 years old, approximately higher in price.

Planting Season:

January to March, except Citrus trees, which ought not to be planted until the heavy winter rains are over, after February 15th.

	Each	Per 10

CONIFERS

Coniferous Trees are the grandest trees in existence. A good many of them are natives of the Pacific Coast, and therefore at home in our climate. Though the more expensive varieties are of rather slow growth, until well established in the ground, they will grow into the finest specimen trees for the lawn in a few years. Prices are for small and medium-sized plants. Quotations for larger plants on application.

Planting Season:

Field-grown plants from October to March. Pot-grown and boxed plants from September to June.

	Pot- grown	Field- grown
ARAUCARIA—		
<i>imbricata</i> , Monkey Puzzle	\$2.00-\$2.50
<i>bidwilli</i> , Australian Bunya Tree	\$2.50-\$3.00
ABIES—		
<i>arizonica glauca</i> , very rare	1.00	2.50
<i>balsamea</i> , Balsam Fir	75c-1.00
<i>concolor</i> , White Fir	1.50-3.00

<i>distichum</i> , Swamp Cypress, deciduous	1.00-2.00
<i>mucronatum</i> , Montezuma Cypress	1.00	1.50
TORREYA—		
<i>california</i> , Nutmeg Tree	75c

EVERGREEN TREES and SHRUBS

Broad-leaved Evergreens vary in size from the largest trees to the smallest shrubs; unlike the coniferous Evergreens, whose flowers are insignificant, most of these excel in brilliancy and floriferousness, others through their shining berries and foliage. These plants give our California garden and parks their distinctive feature.

Planting Season:

October to April; pot-grown plants of this class can be planted any time during the year.

	Pot- grown	Field- grown
ABELIA—		
<i>grandiflora</i> , pinkish white flowers	35-75c	75c-1.25
ACACIA—		
<i>bayleyana</i> , bluish green foliage	50c-1.00
<i>bayleyana purpurea</i> , purple-tipped	75c
<i>cultriformis</i> , grey green, bright yellow flowers	75c
<i>neriifol: floribunda</i> , constant bloomer	25-50c
<i>decurrens dealbata (mollissima)</i>	35-75c
<i>longifolia (latifolia)</i>	35-50c
<i>melanoxylon</i> , Black Wattle	35c-1.25
<i>pravissima</i> , sage-green foliage	75c-1.00
<i>verticillata</i> , dark green, distinct	75c
ARBUTUS—		
<i>unedo</i> , strawberry shrub	75c

	Pot- grown	Field- grown
ANDROMEDA—		
japonica, clusters of white drooping flowers.....		75c
AUCUBA—		
japonica aurea, Gold dust plant	25c	1.00-4.00
japonica seratifolia, bright red berries	75c	1.00-2.50
japonica, male plants	35c	75c
AZALEA—		
indica, grafted varieties	2.00-3.50
indica: Chas: Encke, pink, dark red blotch		1.00-2.00
hinodegiri, carmine-red		1.50-2.00
obtusa kiusiana, Kurume Azaleas in assort- ed colors	35c	1.00
AZARA—		
microphylla, fragrant flowers	50c
BERBERIS—		
darwini, golden yellow	50c	1.00-1.25
elegantissima, long yellow flowers	75c
knightii, dark green, strong grower	50c	1.00-2.00
sargentiana, dark green leaves	75c
stenophylla, slender branches	50c	1.00-1.25
triacanthophora, new, pink flowers	60c
verruculosa, large yellow flowers	75c
wilsoni, corral-red berries	40c	75c-2.00
BOUVARDIA—		
jasminoides, white, fragrant	50c
BUDDLEIA—		
dauidi magnifica, Summer Lilac	25-75c	75c-2.00
globosa, orange flowers	40c
BUXUS—		
sempervirens, Boxwood, in Pyramids and Globe Form		3.00-5.00
sempervirens, in bush form		25c-50c
suffruticosa, dwarf box for borders, per 100		2.00-3.00
balearica, Spanish Box		1.00-2.00
CAMELLIA—		
japonica, assorted colors, double and semi- double, named varieties	50c-2.00	1.00-2.00
CEANOTHUS—		
cyanea, new	75c
thyrsiflora, Mountain Lilac	35-75c
hybrida, Gloire des Versailles	35-75c
CINNAMOMUM—		
camphora, Camphor tree	50c
CISTUS—		
crispus, Rock-Rose, lilac pink	25-75c
ladaniferus maculatus, brown-eyed	25-50c
CHOISYA—		
ternata, Mexican Orange	35-75c
COPROSMA—		
baueri, glossy foliage	35-75c
CORONILLA—		
emerus, flowers yellow tinged red	35-50c

	Pot- grown	Field- grown
CORNUS—		
capitata, evergreen Dogwood		2.00
COTONEASTER—		
coolidgei, new dwarf form	50c
francheti, yellowish red berries	30-50c	1.00-2.50
harroviana, showy scarlet berries	35-75c	1.00-1.50
pannosa, vermilion red berries	30-50c	1.00-2.00
parnayi, red berries, new	50-75c
simonsi, orange red berries	30c	1.00-2.00
Prostrata Varieties:		
apiculata, very large red berries, new	60c
dammeri, bright red berries	35c
horizontalis, bright red berries	30-50c	1.00-1.50
microphylla, rose-pink berries	35-75c	1.00-1.50
prostrata, a prostrate creeping variety		1.00-1.50
thymifolia, very small leaves	50c
CYTISUS—		
monosperma, Bridal-Veil	1.25
racemosus, Dwarf Broom	75c-1.00
scoparius andreana, brown and yellow	1.00
scoparius hybrida, Irish hybrids, new	75c-1.00
DAPHNE—		
odora marginata, pink	50c	1.00-2.50
DIOSMA—		
ericoides, Breath of Heaven	30c
ELAEAGNUS—		
pungens variegata	75c-1.00	1.25-1.50
pungens maculata, golden	75c
ERICA—		
cinerea carnea, blooms in summer	35c	75c
codenoides veitchi, white		1.00-1.25
mediterranean, purple	35c	50c-75c
mediterranea hybrida, dwarf trailing	25-35c	35-50c
melanthera, pink		50c-2.00
melanthera, red, new		50-75c
melanthera rosea, new		75c
ESCALLONIA—		
rubra, red	35c
montevidensis, white	30-60c	75c-1.50
ingrahami, rose	30-60c	75c-2.00
rocki, new, pink	35c-75c
glasneviensis, light pink, new	35c-50c
EUONYMUS—		
japonica, green-leaved		1.00
japonica, aurea, golden-leaved	40c	75c-1.25
japonica, argentea, silver-leaved	50c	75c
EUGENIA—		
apiculata	35c-75c

traversi, white, compact	25c	1.00-1.50

MAGNOLIA SOULANGEANA

DECIDUOUS TREES and SHRUBS

The best street and avenue trees are decidedly deciduous trees; they will give the necessary shade in summer and admit sunshine in winter. In this class are also the most gorgeous spring and summer blooming shrubs. Deciduous weeping trees are beautiful specimen trees for the lawn.

Prices are for field-grown plants, except where noted.

Planting Season:

November to March, after leaves commence to fall and before they commence to bud in spring.

ACER—	Field-grown
dasycarpum, Silver Maple	1.00- 2.00
negundo variegata, Silver Box Elder	1.25- 1.50
rubrum, Scarlet Maple	1.00- 1.25
platanoides, Norway Maple	1.50- 2.50
palmatum, atropurpureum, Japanese purple leaved maple, pot-grown—grafted	1.25- 3.00
AZALEA—	
alta clarense, golden yellow	2.00- 2.50
mollis, assorted colors	2.00- 2.50
BETULA—	
alba pendula Youngi, Young's weeping	2.00
alba, pendula laciniata, cut-leaved weeping	1.25- 3.00
alba purpurea, purple leaved	1.25
BERBERIS—	
aggregata, brilliant autumn foliage	1.25- 1.50
thunbergii atropurpurea, NEW, purple-leaved....	75c
CALYCANTHUS—	
floridus, Spice shrub	1.00- 1.25
CARYOPTERIS—	
incana, blue Spiraea	75c- 1.00
CAESALPINIA—	
gilliesi, Bird of Paradise shrub	75c-1.00
CERCIS—	
siliquastrum, Judas tree, pot grown	35c
canadensis, Red Bud	75c- 1.00
chinensis, Chinese Red Bud	75c- 1.50
CHIONANTHUS—	
virginica, white Fringe	75c-

florida rosea, pink.....	75c- 1.25
rosea, nana var., variegated	75c- 1.50
Eva Rathke, red flowering	75c
Steltzneri, rosy-red	75c- 1.50
venusta, large rose flowers, new	35c- 1.25

FLOWERING FRUIT TREES

Among the flowering trees the flowering types of our fruit trees are undoubtedly the most popular. Beginning with the flowering Almonds, Apricots and Plums in February and March, followed by the gorgeous double flowers of the Peaches and numerous types of Crabapples in April, and finishing up in May and early June with a splendid display of the Japanese Cherries, will mean blossom time at home.

Planting Season:

January to March, or earlier, if stock is available, and the weather permits.

FLOWERING ALMONDS—	Field-grown
Amygdalus communis, fl. pl., double pink	1.00
FLOWERING APRICOT—	
Prunus mume: Dawn, double salmon, pink.....	1.25- 1.50
FLOWERING PLUM—	
Prunus blireana, fl. pl., double pink	1.00- 2.00
Prunus pissardi, single, purple leaved.....	1.00- 2.00
Prunus triloba, double pink, bushy.....	1.00
Prunus Vesuvius, Coppery purple	1.00

DOUBLE JAPANESE CHERRY

FLOWERING PEACH—

Field-grown

<i>Amygdalus persica</i> , camellia florum, double red	1.00- 1.50
<i>Amygdalus persica</i> , Burbank, double pink.....	1.00- 1.50
<i>Amygdalus persica</i> , double white.....	1.00- 2.00

FLOWERING CRABAPPLE—

<i>Malus aldenhamensis</i> , dark foliage, new	1.25
<i>Malus Eva Rathke</i> , weeping crab, pink flowers	1.25
<i>Malus floribunda</i> , deep pink, small red fruit...	1.00- 2.00
<i>Malus hopy</i> , red fruit, flowers and leaves	1.00
<i>Malus ioensis</i> , Bechtel's double rose.....	1.00- 2.00
<i>Malus parkmani</i> , double rosy red, dwarf.....	1.00- 1.50
<i>Malus sargentii</i> , white blossoms, small showy fruit, spreading branches, for rockeries.....	1.25
<i>Malus toringo</i> , bright red flower buds, red and yellow fruit, late.....	1.00

FLOWERING JAPANESE CHERRY—

<i>Prunus campanulata</i> , deep rose red, single.....	1.00
<i>Prunus serrulata</i> , varieties	1.50- 2.50
Daybreak, single pink, blooms before the leaves appear.	
Naden, very double pink.	
Pink Pearl, the earliest double, light pink.	
Sekiyama (Kwanzan), beautiful double shell pink.	
<i>Prunus subhirtella autumnalis</i> . (October cherry), single, light pink to cerise; early spring, blooms sometimes in the fall.....	1.50- 2.00
Weeping varieties:	
Single, pink, 5 to 6-foot stem.....	3.00- 3.50
Double, pink, 5-foot stem.....	3.00

CLIMBING PLANTS

A most useful class of plants, for covering bare walls, trellises, unsightly fences, to plant on verandas and pergolas, in rockeries and as a ground cover under trees.

Planting Season:

October to April, except *Bougainvillea* and the tender Passion Vines, which are better planted after the danger of heavy frost is passed after April 1st.

AMELOPSIS—

Pot-grown

<i>quinquefol</i> , Virginia creeper.....	35c- 50c
<i>sempervirens</i>	35c- 50c
<i>tricuspidata</i> , Boston Ivy.....	40c- 50c

BIGNONIA—

<i>radicans grandiflora</i> , Trumpet Vine, field-grown	50c- 75c
<i>radicans</i> : Mme. Gallen, extra large fine flowers	1.50
<i>speciosa violacea</i>	35c

BOUGAINVILLEA—

<i>spectabilis</i> , magenta, flowers	1.00- 1.50
---------------------------------------------	------------

CHORIZEMA—

<i>ilicifolia</i> , holly-leaved	50c
----------------------------------------	-----

PTERIS—		
A genus of small Ferns assorted varieties	25-50c
HOWEA—		
<i>belmoreana</i> , Kentia Palm	2.00-3.50

ROSES

The "Queen of Flowers" gives best results when planted in a sunny location and in a fairly heavy sediment soil. Be sure that the plants are set deep enough, at least one or two inches deeper, than where the bud has been inserted. Prune rather severe during the winter months, December to February, except the spring blooming climbing Roses like Banksias, Cherokees and Ramblers. Prune these roses right after the blooming season is over, never in the fall.

Budded Roses are more vigorous and give better results than stock grown on its own roots, with the exception of a few climbing and strong growing varieties.

Planting Season:

January to March, also in the late fall, if stock is available.

Prices for field grown plants 50 cents each—\$5.00 per dozen, except for scarce and new varieties, as noted.

ANGELE PERNET—

Deep orange, changing to tango.

AUTUMN—

An unusual color combination of deep, burnt orange and pink, streaked with red, thick glossy foliage60c each.

BETTY UPRICHARD: salmon red.

CALEDONIA—

New, white60c each

CUBA—

Semi-double, bright vermillion scarlet

DAME EDITH HELEN—

Brilliant pink, long-pointed buds, perfect flowers.

DUCHESS OF ATHOL—

Deep, bronze yellow, tinged orange rose60c each

E. G. HILL—

Large double flower, dazzling scarlet.

GOLDEN EMBLEM—

A rich deep golden yellow

GOLDEN GLEAM—

A new brilliant golden yellow75c each

HADLEY: crimson red.

HOOSIER BEAUTY: deep crimson.

MARGARET McGREDY—

Oriental red to carmine rose.

MISS ROWENA THORN—

Huge globular rose, pink flowers, shaded a dusky gold.

MRS. CHARLES RUSSEL: brilliant rose carmine.

MISS LOLITA ARMOUR: coral red, suffused with gold.

LADY MARGARET STEWART—

Sunflower yellow, splashed orange scarlet.

OLYMPIAD—

Dark coppery pink to blood red, shaded orange and gold.

OPHELIA: salmon flesh.

PADRE: coppery scarlet.

PRESIDENT HOOVER—

A charming combination of cerise-pink, flame, scarlet and yellow, pointed buds and large flowers, New.

QUEEN ALEXANDRA—

Vermillion, shaded old gold60c each

ROSEMARIE: clear bright pink.

SHOT SILK—

Orange cerise, suffused with gold

TALISMAN—

Orange-red buds, open to a large golden yellow bloom, stained with copper-red and orange-rose; most gorgeous colored rose.

SINGLE ROSES

Price, 50c each; \$5.00 per dozen

AUSTRIAN COPPER: brilliant, coppery red.

DAINTY BESS: a popular new singleRose, delicate pink, with contrasting winered stamens.

IRISH ELEGANCE: apricot, shaded orange pink.

IRISH FIREFLAME: deep orange, flushed with crimson; a beautiful single rose.

ISOBEL: carmine red, shaded orange, large petals, single.

VESUVIUS: dark velvety crimson, new60c each
Price, 50c each; \$5.00 per dozen except where noted.

CLIMBING ROSES

BELLE OF PORTUGAL: soft salmon pink.

CLIMBING CAROLINE TESTOUTE: pink.

CLIMBING CECIL BRUNNER: salmon pink.

CLIMBING GOLDEN EMBLEM: a vigorous climber, produces great number of golden yellow flowers.

CLIMBING HADLEY: crimson red.

CLIMBING HOOSIER BEAUTY: deep crimson.

CLIMBING FRAU K. DRUSCKKI: white.

CLIMBING IRISH FIREFLAME: orange, flushed red.

CLIMBING MME. HERRIOTT: coral red.

LAMARQUE: white, continuous bloomer.

MARECHAL NIEL: yellow.

MME. GREGOIRE STAECHELIN: new, long pointed carmine buds, changing to pearl pink center60c each

SPECIAL COLLECTION OF ROSES

My own selection, 12 different varieties, all colors, including single and climbing roses\$4 00

THE FOLLOWING VARIETIES FLOWER ONLY IN THE SPRING

AMERICAN PILLAR: pink, white eye.
BANKSIA: yellow and white.
BEAUTY OF GLAZENWOOD, or San Rafael rose.
CHEROKEE: single pink.
CHEROKEE: double white, the best hedge rose.
PAUL'S SCARLET CLIMBER: vivid scarlet.
RAMONA: single red Cherokee.
SILVER MOON: pure white.
STAR OF PERSIA: golden yellow, semi-double.
TAUSENDSCHOEN: delicate pink.

STANDARD ROSES

Budded, 3-4 feet high.

Assorted varieties \$2.00 each

DAHLIAS

The following list of Dahlias comprises the cream of numerous varieties in commerce. They have been selected for their superiority in purity of color, perfection of form, length of stem, continuous blooming, etc.

Planting Season: May 1st to June 15th.

CALIFORNIA DAHLIAS OF MY OWN INTRODUCTION ELSA—

Fluffy white flowers, yellow center, paeony 35c

LA FAVORITA—

First prize at the San Francisco Dahlia Show in 1919:
color: a beautiful brilliant salmon red 50c

MRS. RICHARD LOHRMANN—

A pure golden yellow, of immense size, full center,
broad curly petals; awarded Gold Medal at the Pan-
ama-Pacific International Exposition 75c

PRIDE OF CALIFORNIA—

Awarded the American Dahlia Society Medal at the S. F.
Dahlia Show in 1918; color; dark red, large flowers on
long stems 35c

SEÑORITA—

This giant decorative Dahlia was awarded a silver
medal in the 3-year-old Seedling Class at the Palace
Hotel Show in San Francisco in 1921. A rich velvety
crimson 50c

SOLE MIO—

Awarded Gold Medal for the best established Seed-
ling at the Palace Hotel Show, San Francisco in 1925.
A golden yellow Hybrid Cactus, the giant flowers
are held on strong stems well above the foliage 75c

GENERAL COLLECTION

CHAMPAGNE—

Burnished copper to a dull golden champagne 35c

EL GRANADA—

A Vivid orange, the petals twisted and interlaced 50c

ELLINOR VANDERVEER—

Rose pink 50c

JANE COWL—

Color: Old Gold, blending to apricot and rose at the
center, one of the very best 75c

JERSEY BEAUTY—

A perfect bloom of a deep rose pink. 50c

ISLAM PATROL—

A glorious color combination of red and gold 75c

INSULINDE—

Golden orange, suffused with brown and apricot 50c

KITTIE DUNLAP—

A dark shade of American Beauty rose. 35c

LADY FRANCIS—

An immense flower, old rose 75c

SKAGERAG—

Pure Canary yellow, excellent Hybrid Cactus 35c

SPECIAL COLLECTION

My own selection, including some of the best varieties:
12 different varieties, one each \$4.00

A new Miniature Decorative Dahlia

JEWELTJE (Little Jewel)

This little Dahlia of Holland origin is the outstanding novelty of recent years; not over 3 inches in diameter; of perfect form; a continuous bloomer, and the color, a clear delicate pink. The finest little Dahlia for cutting and florist work 35c

POMPON DAHLIAS

These produce small, compact flowers of perfect form and free blooming qualities. They are unequalled for cutting and garden display. Named varieties 25c each
\$2.50 per doz.

DAHLIA IMPERIALIS—

The Mexican Tree Dahlia grows to a height from 8 to 10 feet, foliage very ornamental; the light pink, bell-shaped flowers appear in November 60c each

DAHLIA MAXONI

Another Tree Dahlia, similar to foregoing; of even stronger growth; flowers of a dark lavender pink; also late in November; therefore only adapted for warmer parts of the country 60c each

WATER LILIES

The culture of Waterlilies is so simple that it might almost be said that "they just grow themselves." Their modest requirements are sun, water and rich soil. In deciding on a place for a natural water-garden, one is naturally led to select a low spot.

It is not very difficult to construct an artificial pool. Any location that is available would be satisfactory, provided it is exposed to the full sun.

An artificial pool should be made as large as possible, and 2 feet deep. In California it is advisable to build the bottom and side walls of 6-inch water tight concrete. Make an artificial pool as natural as possible and avoid stern lines and too apparent masonry. A generous planting of moisture-loving plants around the edge of the pool or pond will furnish an added charm to the plants in the pool itself.

One foot of water over the soil is the most desirable depth in artificial pools. Some will thrive in shallower water, but few will stand a depth exceeding 2 or 3 feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only necessary to replenish that which evaporates.

A few Goldfish will serve to destroy the wrigglers that hatch into mosquitos and larvae of other insects.

NYMPHAEAS

AURORA—

Flowers are rosy-yellow, turning to a red-orange and deep red, as they mature \$1.50 each

COMANCHE—

Rich apricot, changing to a deep coppery bronze a sunset color \$2.50 each

GLADSTONE—

The finest white Water Lily in cultivation\$1.50 each

JAMES BRYDON—

Rosy red, cup-shaped blossoms, free grower\$2.50 each

MARLIAC YELLOW—

A vigorous grower; bright canary yellow \$1.50 each

MASANIELLO—

A charming pink variety, quite distinct \$1.75 each

PAUL HARIOT—

A magnificent variety, distinctive color: canary yellow, shaded with pink, which suffuses the flower entirely as it grows older. A good grower \$2.00 each

ROSE-AREY—

Colored, a clear cerise pink; sweetly scented .. \$1.50 each

SUNRISE—

Very large sulphur yellow flowers, leaves mottled brown \$2.50 each

W. B. SHAW—

Wide open flowers of a rich rose pink, very fragrant\$2.00 each

TROPICAL WATER LILIES

Sooner or later every owner of a pool wants to grow a few tropical water lilies. Considering their intensive blooming season, the quality of their flowers, on strong stems above the water, they are really the aristocrats of the lily pool. Young plants have to be started in the greenhouse, and should not be planted until the middle of May. It is best to set out new plants every year. Order early. Prices, according to variety, from \$1.50 up.

NELUMBIUM NUCIFERA

The most strikingly beautiful plant in the aquatic field is the Lotus or Nelumbium. The large concave leaves, resembling green shields, are borne on stout stems high above the water. The flowers are of exquisite rose pink, like giant Tulips, changing to creamy tints when fully open.

The brown seed-pods, which remain long after the flower is gone, are very artistic.

The Nelumbiums are rampant growers and heavy feeders and must be supplied with a very rich soil.

Tubers ready in May \$2.00 each

IRIS

Iris germanica, commonly called German Iris, Flag-Lilies or Fleur de Lis, are amongst the most desirable and easiest grown of our spring flowering plants. The flowers fairly out-rival the orchids in delicacy of structure and wide range of coloring. They are particularly adapted to our California climate, if planted in a well-drained sunny location, requiring very little water during the summer. Avoid planting too deep and fresh manure.

Planting Season:

September-November, or later, if the ground is not too wet.

Price for strong divisions: 20 cents each, \$2.00 per doz.

ALCAZAR—

Standards; light bluish violet with bronze reflections;
Falls; red violet, bronze-veined throat.

AMBASSADEUR—

Standards bronze, falls dark maroon.

BALLERINE—

Large, fragrant, violet blue, one of the very finest Pallida type.

ELIZABETH HARDEE—

Large flowers, with flaring falls of an intense lupin blue.

GLOIRE DE HILLEGOM—

Lavender, shaded blue, very fragrant: one of the best Pallida varieties.

MOTHER OF PEARL—

Standards and Falls, pale blue lavender, with a faint creamy undertone.

PRINCESSE BEATRICE—

Standard and Falls, a delicate blue, rated as one of the best Iris.

IRIS-KOENIG—

Standards, clear lemon; Falls, deep satiny brown, golden yellow border.

ISOLENE—

Pale lavender, lower petals light purple overlaid with brown, yellow beard; very distinct.

LORELEY—

Standards, pale sulphur-yellow; Falls, deep ultra marine blue, veined creamy white yellow border.

LOHENGRIN—

A delicate shade of pale lavender blue, very large flowers.

NIBELUNGEN—

Standards, olive green suffused with yellow; Falls, deep purple, edged creamy white.

NOTHUNG—

Standards, light olive colored; Falls, delicate lilac, golden yellow beard.

PRINCESSE VICTORIA LUISE—

Standards, sulphur yellow; Falls rich plum color with creamy edges.

PROSPERA—

Standards of rich violet rose; falls velvety violet purple orange beard.

QUEEN OF THE GYPSIES—

Old gold, shaded pearl, falls maroon.

RHEIN-NIXE—

Standards, pure white; Falls, deep violet blue, margined white.

SEMINOLE—

Standards, lilac red; Falls, velvety crimson, orange beard.

1 dozen unnamed varieties.....	1.50
100 Iris, 10 varieties, my selections.....	10.00

HARDY PERENNIALS

Herbaceous plants are indispensable for filling in and planting amongst shrubbery, in the rock gardens, for the old-fashioned perennial border, etc. Most varieties, after once planted, will live and bloom without much attention, for many years. Prices are for field-grown, potted or transplanted seedling plants.

Planting Season:

October to March, as early as possible, whenever the soil is in good condition.

SUMMER FLOWERING BEDDING PLANTS

These plants are mostly Annuals, raised every year from seed or cutting, several are of a hardier nature, and under favorable conditions will stand our California winters. Prices are for plants, grown in boxes or 2 inch pots.

Planting Season:

April, May and June, except for the winter and early spring bloomers, like Pansies, Winter Stocks, Wallflowers, etc.; plant those in October and November.

	Per doz.	Per box of 50

Showing 12-18 inch plant; 15-18 inch plant more bushy.

Directions for Planting and Growing Rhododendrons

Soil and Care: Rhododendrons can be grown in almost any soil that does not contain lime in appreciable quantities. The plants should be kept mulched at all times to protect the shallow root-system, and to the extent of the root-system, they should be hand weeded only and not hoed. The plants should have plenty of water during dry seasons. This will help them to set more and better flower buds in the Fall. After blooming and in order to insure a more vigorous growth for the next season, the flower trusses should be picked off before seed pods are developed.

Situation: Rhododendrons can be grown in practically any situation, the only exceptions being those spots entirely in the shade of trees or steep banks facing south. In the former case the plants are deprived of the sunlight essential to good health while in the latter they suffer from drought during hot dry weather. A cool, moist position suits them best, and, provided the ground is well drained, they will flourish in comparatively wet spots. Partial shade is beneficial rather than otherwise if it can be obtained without planting too near the roots of stronger growing subjects.

Planting: This can be done at any time from October to May, except during severe frost. The ground should not be too wet, and the plants must be thoroughly trodden in when planted: in fact, if the soil has been properly prepared for them it is nearly

DeLuxe Collections Nos. 5 and 6, 8-12 inch plants ready to ship.

impossible to tread Rhododendrons too firmly. They should be planted at the same depth as they have been before, or a trifle deeper, the ground mark on the stem being a sufficient guide for this. If the roots are at all dry, before being planted they should be thoroughly soaked by standing them in water for a short time.

Distance to Plant: For general purposes a distance of one and a half times the height of the plants out of ground is a good guide when planting Rhododendrons. Thus plants two feet in height should be three feet apart; four feet high, six feet apart; and so on.

Rhododendrons are shipped in the original peat soil ball in which they were growing in the nursery, root-ball well protected. Will arrive safely, carefully boxed.

DeLuxe Collection No. 4, 8-12 inch plants ready to ship.
